25X1X

25X1A

1. On 11 October 1950, two railroad tank cars with gasoline from Rohrau (P 49/X 78), and ten railroad cars, loaded with bomb cases, from Wiener-Neustadt, were seen at the Eisenstadt railroad station. Some of the cars were transferred to the Kattler Settlement, and the others to the Trausdorf airfield. *
2. On 26 October 1950, two railroad cars, loaded with 25X1A new sleighs (sic) with box-like superstructures, were seen at the Eisenstadt railroad station. The station of dispatch could not be determined. All sleighs were shipped to Trausdorf. *

25X1

25X1A
25X1Comment.

 The shipment of bomb cases is reported for the first time. If the fighter units in Trausdorf are still equipped with P-39s, and no information has been received for a long time, the transportation of bomb cases would not be unusual, since the P-39s can also be employed as fighter bombers.
